Creative, detail-oriented Graphic Designer specializing in visual problem-solving through layout, branding, and user focused design. Experienced in transforming complex ideas into clear visuals that increase engagement and strengthen communication. Skilled in print design, UI, front-end development, responsive layout, and accessibility minded digital design.

EDUCATION

Saginaw Valley State University, Saginaw, MI
B.A. in Graphic Design • Minor in User Interface
Dean's List: Winter 2023, Fall & Winter 2024

May 2026

RELEVANT WORK EXPERIENCE

Playmodo Design- Saginaw, MI

May 2026 – August 2026

Product Design & E-Commerce Intern

- Managed the online presence for Playmodo design by designing a modular Shopify template for multiple toy-adjacent brands, assisting with product & promotional imagery, and maintaining a social media presence.
- Assisted with product line conceptualization, utilizing AI-powered tools like Nano Banana Pro and Meshy 3D AI, as well as 3D modeling software like Meshy 3D AI, Nomad Sculpt, and CAD to create 3D printed prototypes for testing.

Career Services- Saginaw Valley State University, Saginaw, MI

January 2025 – May 2026

Graphic Design Intern

- Designed print/digital materials for employment fairs using Adobe Creative Suite software (Photoshop, Illustrator, InDesign) contributing to ~20% higher student attendance and greater campus visibility
- Created employer-partnership branding templates, resulting in a cleaner design system and 7 new employer partners, including a "benefits roadmap" that encouraged ~10% more partners to utilize available program incentives.

Sacred Spaces Therapy- Auburn Hills, MI

May 2025 – July 2025

Freelance Web Designer/Developer

- Built a mobile-responsive website from scratch in under 2 months using HTML, CSS, JavaScript, and a custom Hostinger Domain, including a functional client form that allowed for direct communication with the business owner and contributed to a 10% increase in session duration.
- Integrated Google Analytics and basic SEO to track page views, resulting in 50% increase in page performance.

PROJECTS

Cedar Haven Library & Craftworks UX/UI App Interface- Scholarship Winner (1st place, \$300)

- Designed a multi-screen interface in Figma focused on accessibility, readable typography, and intuitive navigation.
- Conducted informal usability testing and used feedback to refine layout and simplify task flow
